Firemen descend into Andrea's basement, left, pour water through front door, center, and douse Faye Renee basement, right.

## Blaze Battled For Two Hours

A fire which caused an estimated \$50,000 worth of structural damage roared through the basement of Andrea of Palm Springs at 193 South Palm Canyon Drive at approximately 3:15 p. m., Saturday.

Warren Empey, fire station one battalion chief, told The Desert Sun that cause of the blaze hasn't been determined this morning.

"It apparently began in the northeast corner of the basement, amidst a collection of wrapping materials," Empey said.

THE FIRE WAS swept up a heating duct between Andrea's and the Faye-Renee shop adjacent, causing structural damage in the partition. Major damage was in the Andrea basement, fire fighters reported.

Mrs. Andrea Leeds Howard, former renowned actress owner of the store, was restrained on the sidewalk by friends from an attempt to enter the building to rescue a pet dog trapped in the basement. The pet was found suffocated under the basement stairs, where it had fled the fire.

THE PALM SPRINGS fire department put two pumper units on the blaze, fighting it to control within an hour and fifteen minutes. Firemen were hampered in

entering the basement by smoke and flame boiling up the stairwell, and chopped through the floor in two places to reach the fire source.

A welded metal grating was wrenched from a basement window opening, and the steel cover to the sidewalk elevator well was opened to permit entry to the blaze, Empey said.

INVENTORY FIRE loss has not been calculated. Heaviest loss was believed to be in Andrea of Palm Springs, with some smoke damage in the Faye-Renee store. No structural damage resulted to the upstairs apartments, and only minor smoke damage was reported there. It was reported today that gifts already purchased in Andrea's were not damaged in the fireproof safe.

The fire fighters secured to the station at 5:35 p. m., after cleanup and initial investigation. Empey and acting fire marshal Capt. James Harris are scheduled to continue fire cause studies this afternoon.

## ARABS ASK HOLY WAR IN ALGERIA

ALGIERS, Algeria (U) — Mobs of Arabs shouting for a holy war against the French attacked French troops and Europeans throughout Algiers today and were driven back with bullets, tear gas and grenades.

The French were reported calling in paratroop reinforcements to combat the worst rioting in the history of Algeria.

THE GREEN FLAG of "jihad"—or holy war—fluttered over the Casbah as Moslems who have lived here for 130 years under the French for the first time openly supported the FLN, the rebel

movement headed by "premier" Ferhat Abbas in neighboring Tunisia. The death toll in four days of fighting approached the 100 mark. Unofficial reports said 10 Moslems were killed today when Arab youths tried to fight their way through police lines surrounding the Casbah. Others were killed in Moslem-European fighting. Military authorities reported finding "some" bodies in the Casbah. The unofficial death toll in previous fighting stood at 81.

TODAY'S OUTBREAKS appeared to be stirred by Abbas' declaration in Tunis that "the French colonialist regime has finally lost the contest" after six years of bitter warfare. He rejected French President Charles de Gaulle's plans for a semi-independent Algeria.

Abbas cabled United Nations Secretary-General Dag Hammarskjöld asking immediate U.N. intervention to halt the "intolerable provocations" and what he called "bloody and savage" repressions. The situation was so grave that De Gaulle cut short by one day the Algerian visit which touched off the new rioting.

### MASTER VIOLINIST

## Harold Stern Succumbs Here

Death halted an almost legendary musical career here Saturday when Harold Stern, onetime master violinist, died at 3:30 p. m., in Desert Hospital. He was 68.

Russian-born Stern had played in virtually every medium available during his five decade career on violin. He had been in California for 14 years—living in semi-retirement—and decided to fully retire in Palm Springs.

The desire to play his violin overrode the advice of doctors, however, and although his playing was only vaguely reminiscent of his former greatness he still played nightly recitals in the Palm

Springs Riviera Hotel here. Stern, who amassed a large fortune during his lifetime as a concert violinist, is survived by his widow, Ethel; two daughters, Mrs. Blossom Tracy and Mrs. Jill Robbins, all of New York; three brothers, Murry, Ralph and Louie Stern, all of New York; and two sisters, Tillie Mogul and Sophie Seiden, both of New York.

Funeral services will be held at a later date this week from Riverside Memorial Chapel in New York with interment to follow in Mt. Lebanon Cemetery. Arrangements here are being handled by Weifels and Son Mortuary.

## Red Troops Join Laos 'Neutralists'

Soviet Arms Airlifted to Capital Today

VIETNAME, Laos (U) — Laotian paratrooper leader Capt. Kong Le announced today he was integrating Communist troops into his garrison command, and the Russians began airlifting arms and ammunition to the "neutralist" government.

The Southeast Asia Treaty Organization Council of Representatives convened an emergency meeting in Bangkok today to discuss the serious situation in the SEATO area arising from the Laotian crisis.

KONG LE MADE the announcement after the Soviet arms-including howitzers—began arriving by plane in the capital. He said he was getting ready for a major battle with right-wing forces led by pro-American Gen. Phoumi Nosavan.

"SOLDIERS of the (Communist) Pathet Lao are here to help us crush the enemy," Kong Le said in a public statement. He said they had combined forces with his 500 paratroopers to fight off Phoumi, still reported on the outskirts of the city. It was Kong Le who overthrew the pro-Western Laotian government in a coup last August and turned this Indochinese kingdom into an Oriental Congo in which governments have risen up and disappeared and a half a dozen leaders claim power.

## POLICE HUNT PERSON WHO FIRED SHOTS

Police today are continuing an apparently cold search for an unidentified "15 to 20 shots" at a time of "15 to 20 shots" at school authorities Saturday night, as they stood in front of the Palm Springs High School auditorium just before curtain time for the senior's performance of "Death Takes a Holiday."

## Snowstorm, Gale Winds Sweep East

Airports, Schools Closed; Traffic Flow Curtailed

By United Press International A snowstorm swept the eastern states on gale-force winds today, and kept financiers and clerks, government workers and schoolchildren at home or made them late to work. More than a dozen deaths in the East raised the nation's toll to 45 since the season's most widespread bout with winter began in full fury in the Southwest a week ago.

UP TO 14 INCHES of snow blanketed the East. Winds rose to 35 miles an hour and temperatures plunged below zero. The Weather Bureau issued a high-bow forecast; it said snowfall would reach 18 inches in some places by tonight.

The storm gained surprising strength as it fell with impartial weight on the nation's capital, Washington, its largest city, New York, and portions of its busiest industrial production area, extending from Ohio through New England.

Transportation bogged down in the big eastern cities.

IN NEW YORK, the Stock Exchange failed to open on time because most of the personnel had not arrived for work. Colleges and schools closed. La Guardia airport shut down. Stalled buses, cars and even tow trucks clogged streets.

Most major airports along the seaboard closed, some major highways were littered with abandoned cars, trains and New York subway traffic was curtailed and bus and car traffic slowed to a crawl.

## Stevenson, Bowles Accept Positions

PALM BEACH, Fla. (UPI)—President-elect John F. Kennedy today announced the appointment of Dean Rusk as secretary of state. Kennedy also announced that Adlai E. Stevenson had accepted Kennedy's offer of appointment as U. S. ambassador to the United Nations.

The President-elect also announced the selection of Rep. Charles Bowles, D-Conn., as undersecretary of state.

RUSK, 51, a native of Cherokee County, Ga., is now president of the Rockefeller Foundation and served during the Truman administration as assistant secretary of state for Far Eastern affairs.

Stevenson, former governor of Illinois, was the Democratic presidential candidate in 1952 and 1956. Bowles is a former ambassador to India.

Kennedy announced his long-awaited selection of a secretary of state in a tropical patio of his ocean-front villa here. Rusk was at his side, having arrived here Sunday night.

BEFORE THE appointments were made public, Kennedy and Rusk conferred by telephone with Stevenson who was offered the U.N. post last week, but deferred acceptance until he knew the identity of the secretary of state.

Kennedy was high in his praise of the three appointees and spoke briefly of his hopes for American foreign policy.

"My hope in the coming years is that the foreign policy of the United States will be identified in the minds of the people of the world as a policy that is not merely anti-Communist, but is for freedom ..."

KENNEDY, WITH Rusk in emphatic agreement, said the goals of American foreign policy would be "peace, freedom and the pursuit of a just life."

The President-elect said he de-

cided on Rusk "after a long and careful study because it seemed to me that he was the best man for the office." Kennedy met Rusk for the first time only last week, but he was deeply familiar with the background of his cabinet selection.

RUSK WAS particularly recommended to Kennedy by some of the current key officers of the State Department.

Kennedy said that after he, Rusk and Stevenson conferred by telephone on the relationship between the president, the secretary and the U.N. ambassador, he thought the relationship was satisfactory to all three.

Rusk in accepting the appointment said he was aware that it was "a compelling and sobering responsibility" which he accepted in the knowledge that "there is an enormous amount of work to be done."

THIS WAS Kennedy's fourth cabinet appointment and he expected to have the No. 5 no later than Wednesday of this week.

Weather conditions in Washington permitting, the President-elect said he still planned to leave Palm Beach late this afternoon for the nation's capital.

## Warning Issued On Property Tax Deadline

First installment of the 1960-61 real property tax and liens attached thereto will become delinquent if not paid or postmarked by 5 p.m., Monday, Dec. 12. Miss Donna M. Bower, Riverside County tax collector, warned today.

If the tax becomes delinquent, a six per cent penalty must be added to all assessments upon which the first installment of the current tax has not been paid.

Property owners may pay the second installment of the tax at the same time that the first is paid, Miss Bower said. However, the second installment does not become delinquent until April 10, 1961.

## CHP, Alcohol Control Set Holiday Plan

### Joint Program Aimed to Slash Christmas Toll

Commissioner Bradford M. Crittenden, California Highway Patrol and Malcolm E. Harris, Director of Alcoholic Beverage Control laid plans today for a cooperative program aimed at reducing the number of automobile accidents during the coming holiday season.

One of the main features of this program will be the placement of an appropriate poster in business establishments and personal contact with each alcoholic beverage licensee.

THESE STATE officials are hopeful that with the help of local enforcement agencies, the accident rate can be greatly reduced by constant reminders that the Departments are cooperating in their enforcement program.

Crittenden pointed out that the California Highway Patrol has joined with the Department of Alcoholic Beverage Control for the past four years in conducting a mutual enforcement program throughout the State during the holiday season.

"THIS YEAR," HE said, "we are appealing to the alcoholic beverage industry, as well as national, state and city safety councils and religious organizations to assist us in emphasizing the importance of safe driving during the coming Christmas season."

According to Harris, an attempt will be made by his investigators during the holiday season to visit every licensed retail premises in California. "These investigators will ask each licensee to give particular attention to the condition of purchasers, in order that this holiday season will not be marred by accidents and deaths through want of care on the part of the licensee."

APPROXIMATELY 15,000 posters pointing out that drunk drivers will lose their driver's licenses and bearing the names of the Departments as well as local law enforcement agencies, will be offered to on - sale and off - sale licensed beverage establishments throughout the State.

## DHS Cityhood Backers Start Big Campaign

Unit Endeavors  
To Offset Mail  
By 'Anti' Group

DESERT HOT SPRINGS —Proponents of the incorporation of this community met late last week to start an all out campaign to offset the brochure that was circulated last week by opponents of the incorporation move.

The meeting was called by incorporation chairman Howard Carr who brought Palm Springs Director of Finance Shelby Langford to explain the cost of operating a city.

LANGFORD TOLD the group at the meeting that Desert Hot Springs "is just about the same size as Palm Springs was when it incorporated in 1938" and added that the city would set a \$1 per \$100 assessed valuation tax limit. He outlined the entire program for financing a city to the incorporation committee.

ANOTHER GUEST at the meeting was Ivar Lyones, a consulting sanitary engineer from Los Angeles, who told the committee about the much protested sewer issue. He told the committee that before any project like this is undertaken, it must go to a vote of the residents of the city.

The incorporation committee has planned a future meeting at the Town Hall here when all the men who have filed for city councilmen will be present to answer questions.

On Dec. 15, Carr has planned a talk on incorporation at the Jewish Community Center.

## State Mails Out Truck, Trailer Renewal Fees

Renewal fee statements for operation of trucks and trailers in 1961 have been mailed to a million and a half registered owners of commercial vehicles throughout California.

Robert McCarthy, Director of Motor Vehicles, said in Sacramento today that these notices are the first of the nearly nine million reminders to be issued by the Department for 1961 vehicle registrations.

"Private passenger car owners will not receive their punched cards until after the Christmas holiday," the Director stated. "The truck and trailer owners who operate commercially receive an earlier advance notice for renewal of registrations."

He added that trailer coach or house trailer owners are receiving their notices currently. "We find that not all California trailer dwellers are aware that the law requires them to register annually whether they move their coaches on the highways or not," McCarthy said.

## SERIES ON SCIENCE BREAKTHROUGH

## Life Secret May Be Unveiled

EDITOR'S NOTE: Less than two decades ago science exposed the secret of non-living matter and thus produced the hydrogen bomb. Now scientists around the world are exposing the secret of living matter — of life itself.

Will they be fully successful? What will it mean if they are? How much progress has been made? What is the outlook?

Delos Smith, science editor of United Press International, tells the exciting story in four dispatches, the first of which follows.

By DELOS SMITH  
UPI Science Editor

NEW YORK (UPI) — Science believes it has its hand on the base material of all life. In hundreds of laboratories in all parts of the world, it is busily turning the stuff inside out to learn every one of its countless secrets.

This base material is a molecule—the molecule of deoxyribonucleic acid, known by the initials DNA. Science eventually is going to get at all its secrets, you may be sure, and the potential rewards seem to be without limit.

CANCER AND MANY other dread diseases could be eliminated. The life spans of all forms of life, could be lengthened indefinitely. People (or any other organisms) could be born ideally endowed. It might even become possible to create life forms which do not now exist.

Such an unlocking of the secrets of life would be man's greatest achievement. It would far overshadow the scientific unlocking of the secrets of non-living matter which led to the hydrogen bomb.

IT MAY NOT COME in this generation or in the next or even in this century. Science hopes it will come sooner rather than later. But it is confronted with the fact that base material of all life is complex almost beyond comprehension.

Molecules generally are the smallest units of any given chemical substance which can manifest its chemical activity independently. This molecule of DNA seems to be life's queen bee molecule from which spring all other essential molecules of life.

MOLECULES COME into being

because certain chemical elements have affinities for others. This causes them to get bound together. All substances are made up of elemental atoms bound into molecules. This is as true of non-living substances such as air, water and minerals as of living substances such as a jelly fish, a rose, a rattlesnake and a person.

The atoms are the same in the non-living and the living and some of their molecules are identical. Therefore, the difference between the non-living and the living have to be in the differences between the atomic organizations of their molecules.

tain no fewer bound atoms.

ANYONE WHO HAS ever seen a single cell, whether from an onion or a man, magnified under a microscope never gets over his astonishment. A livelier life in terms of movement hardly can be imagined, even though it is on a microscopic scale.

There is no suggestion of anarchy in this movement. The regularity of activity is that which a drill sergeant imposes upon his charges. Beyond any question something is in command, something which animates and which also controls.

## palm Springs Lost a Guiding Hand

Roy W. Colegate, had a guiding hand in the growth of Palm Springs, in its development as a city, and in its civic and business life.

He was instrumental in the incorporation of Palm Springs in 1933, and continued to guide the city on legal matters for 13 years until the growth of city business drew too much time away from his own private practice.

During his 25 years in Palm Springs he also devoted much time to civic ventures, offering advice and taking an active part.

His success as an attorney in private practice

was evident from the clients represented by his firm.

Palm Springs can count itself fortunate that it had the benefit of a quarter of century of advice and legal guidance and contributions of the life of Roy W. Colegate. This is made more true because of the difficult time experienced by a city during evolution from a small village to one of the top resorts in the country.

His passing will leave a vacuum in the community, one which must be filled by similar dedication and work by other residents.

## Goals for Americans

### PART III

#### A FINANCIAL ACCOUNTING

(EDITOR'S NOTE: Because of the importance of the report of the President's Commission on National Goals, The Desert Sun is carrying it in its entirety. This is another in the series.)

(Continued)

Domestic expenditures are also hard to estimate. For education, we shall need a large additional sum. Expenditures at all levels of government for health, urban renewal, housing, transportation systems, and reservation of open space will certainly rise materially, and federal government support for basic research must be increased.

Economies can and must be made. Some savings in the federal agricultural program may be possible, and greater efficiency throughout government would reduce costs. But these savings cannot be counted on to offset rising expenses.

We therefore face the prospect, though by no means the certainty, that aggregate tax rates will continue at something like their present level through the decade, and may even have to be increased. We must face squarely the issue: if attaining the goals outlined in this Report should require a somewhat higher level of taxation, can we bear this level without consequences which themselves make the goals more difficult to reach?

Provided that economic growth proceeds at an annual rate of 3.4 per cent or higher, there is no doubt that we can do so. In aggregate terms, increasing public expenditures are very unlikely to reduce the level of average individual consumption in this country; the average citizen's standard of living would continue to rise, though perhaps at rates below those of the recent past. A moderate increase in tax rates need not, if its necessity were understood, materially impair the incentive or the morale of the American people, nor alter the primary reliance of the economy on private choice.

Tax systems which must allocate for governments about one-fifth of the national product must be both fair and designed to reduce to a minimum the impact of taxes upon growth.

A substantial reform of the tax system is essential, whether public expenditures must be increased or can be reduced. It will facilitate the attainment of many national goals.

The federal tax system should be revised to eliminate unjustified exceptions in its general rules, to assure equitable treatment of all types of incomes, to encourage the accumulation of risk capital so vital to economic growth, and to remedy the many contradictions and flaws which have grown up within the system.

Many state governments must find new tax sources. Local governments must be freed of unnecessary restrictions on taxing and borrowing powers, and the pronounced inequalities in the property tax bases of local jurisdictions should be corrected.

If these reforms are made and the minimum growth rate we postulate is achieved, it is this Commission's conclusion that the levels of public spending we would need to realize the recommendations of this Report are attainable. There must be no ideological preference for public spending as such. Costs must always be carefully weighed. But the needs outlined in this Report are themselves vitally related to ultimate freedom and individual development. We should not fail to meet them.

### A CONCLUDING WORD

The very deepest goals for Americans relate to the spiritual health of our people. The right of every individual to seek God

and the well-springs of truth, each in his own way, is infinitely precious. We must continue to guarantee it, and we must exercise it, for ours is a spiritually-based society. Our material achievements in fact represent a triumph of the spirit of man in the mastery of his material environment.

The family is at the heart of society. The educational process begins and is served most deeply in the home.

From the first days of our history, every American has been responsible for his own life and livelihood, and for his family's, and has shared responsibility for his neighbor's. In our early years, the perils which threatened were close at hand, and the responsibility was inescapable. Now dangers, and opportunities as well, come from greater distance, and more subtly. But they are just as real. And it is as true as in the days of the frontier that the goals for Americans cannot be won without the efforts of all.

The major domestic goals of equality and education depend overwhelmingly on individual attitudes and actions.

It is the responsibility of men and women in every walk of life to maintain the highest standards of integrity.

American citizens will in this decade have countless opportunities to take the national interest into account in deciding their course of action. Negotiators for labor and management affect the growth of the economy and its ability to compete with industry abroad when they reach a decision on compensation and working conditions, and thus influence the rate of technological change. Young men and women will help shape the course the United States will take by deciding in what occupation they will spend their lives. Americans who live or travel abroad can persuade countless people of the sincerity of American ideals and the values of democracy, or they can tarnish the nation's reputation. Voters will determine whether schools will be built, teachers' salaries raised, foreign assistance enlarged, defense needs fulfilled. Our goals will be attained and our way of life preserved if enough Americans take the national interest sufficiently into account in day-by-day decisions.

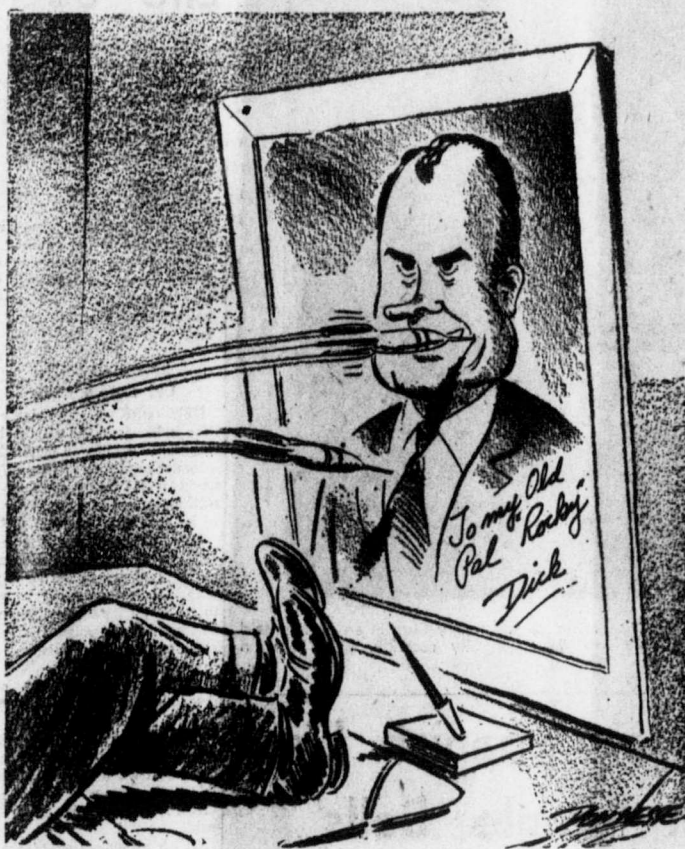

The American citizen in the years ahead ought to devote a large portion of his time and energy directly to the solution of the nation's problems. There has been repeated occasion in this Report to emphasize the overriding importance of contributions by private groups and individuals. Many ways are open for citizens to participate in the attainment of national goals. To mention but a few; they may help to control delinquency by organizing a boys' club, serve on a school board, accept a tour of duty with government, participate actively in politics through parties or interest groups.

Above all, Americans must demonstrate in every aspect of their lives the fallacy of a purely selfish attitude—the materialistic ethic. Indifference to poverty and disease is inexcusable in a society dedicated to the dignity of the individual; so also is indifference to values other than material comfort and national power. Our faith is that man lives, not by bread alone, but by self-respect, by regard for other men, by convictions of right and wrong, by strong religious faith.

Man has never been an island unto himself. The shores of his concern have expanded from his neighborhood to his nation, and from his nation to his world. Free men have always known the necessity for responsibility. A basic goal for each American is to achieve a sense of responsibility as broad as his world-wide concerns and as compelling as the dangers and opportunities he confronts.

## This Side of The Sun

By Phat

Why is it the man with the hammer, Will wait to pound his nails Until you're on long distance Then pound despite your walls.

I guess it's just one of those things — like the day the gay Christmas decorations go up, the wind starts to blow, and after weeks of beautiful weather, let some big outdoor event get under way and it rains.

BUT I LIKE to watch a man preparing to do a small repair job. He waits until the middle of the day when everybody is on the job concentrating on their various projects.

He doesn't even start then. He poises the hammer, points the nail, squints at it, moves it over a half inch, back a quarter, another eighth the other way.

Just about then the phone rings. It is a long distance call with a bad connection.

So he lets fly. Makes so much noise he can't hear the concert of yowls from people trying to catch a dim voice from miles away.

It's one of those things — it never fails.

GUESS SOME PEOPLE ARE just naturally lazy or perhaps they stuck 'em on too tight.

But while cursing our thoroughfares this week I counted nine cars with Nixon and Lodge stickers and seven with Kennedy and Johnson stickers.

That's not the way the election turned out but it's the way it was on the highways.

I didn't count the billboards which are still urging you to vote for someone who was walloped at the polls more than a month ago.

JUST WANT TO SAY in reply to five notes and verbal comments "you're all wrong. It wasn't that bartender, at all."

Seems that these people read that Bartender's Lament in this column and right away got ideas about who almost collapsed after serving 23 women at his bar.

Three people mentioned the same dispenser of ardent spirits and two others were nominated.

All wrong.

AFTER THAT heavy dew the other morning I'm still convinced that we made a mistake here when we abandoned the old semi-tropical architecture for the modern steel and glass fronts.

The old western type with the roofs extending out over the sidewalks was great stuff.

Kept you dry in the rare rains here and in the summer, did away with the excess sun.

AS APT A PHRASE as I have heard in a long time came from that seedy looking individual who stopped me the other morning and mooched 15 cents for a cupacoffee. (It used to be a dime).

Told me a tale of hard luck. "I was let out again this week," he said. "Seems to be I've been fired from every place except Cape Canaveral."

STAN DELAPLANE:

## The Beer Was Free

The most chic thing you can do in San Francisco these days, the most "in" venture, is shopping along the scrummy waterfront.

A number of import houses opened retail outlets in beat-up warehouses alongside the railroad tracks. And the prospect of shopping in this decrepit area brought out the mink- and Cadillac trade. (That's show biz!)

SO THE OTHER night when we were invited to the opening of a Danish furniture house, we hurried right down to examine this important new trend.

The exhibit was housed in a warehouse with a galvanized iron roof and an inside temperature you could have kept meat in. But already a fair-sized crowd had parked out on the cobblestones. They crowded in where the Tuborg people were pouring free beer.

A DANISH BAND was playing Danish music, just as if it were the Tivoli Gardens in Copenhagen.

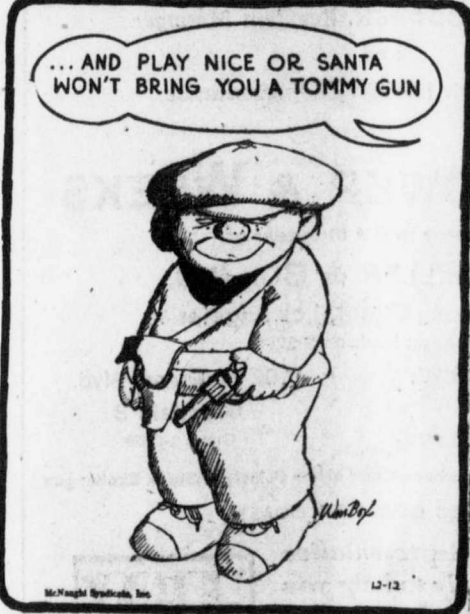

The furniture was displayed on little raised islands and alcoves. And the guests walked around on the concrete floor which had been covered with olive-green sawdust.

"THE TREND IN waterfront merchandising is the most amazing thing of this year," said Mr. Alex Rasmussen. Mr. Rasmussen is a Dane. He opened two standard furniture shops, all chrome, glass and comfort, in the San Francisco suburbs.

"We expect this place to out-sell both the others."

IT IS AS SURPRISING to Rasmussen as it is to the other places along the waterfront. "Perhaps it is because the waterfront gives imported things more romance. This furniture came off that Danish ship right across the street there."

## "THAT'S THE STORY OF MY LIFE" by Box

## Dear Abby...

...by Abigail VanBuren

DEAR ABBY: This is for the barber who complained about mothers taking their children to the barber shop on Saturday: Unless the barber wants me in his shop with all my seven children — ranging from 11 months to 12 years — he had better keep quiet. My husband stays at home with the younger ones while I take the older boys for haircuts. And Saturday is the only day I have the car.

SATURDAY LADY

DEAR ABBY: If I had my way, I'd never set foot in a barber shop, but what can I do when my husband refuses to take the boys for hair cuts? Saturday is his day to relax and unless I want my boys mistaken for girls, I have to take them to the barber shop myself. "STUCK"

DEAR ABBY: I almost blew my top when I read where that barber complained about cutting children's hair on Saturdays. He gets as much for cutting a child's hair as he does an adult's. Half the time our barber turns out the kids looking like nincompoops. If he sang like Perry Como I wouldn't mind, but he whistles off-key.

BORN TO LOSE

DEAR ABBY: Tell that barber that the reason mothers take their children to the barber on Saturdays is because the fathers are busy working to earn the fantastic price of a haircut.

WORKING FATHER

DEAR ABBY: I am a barber with 30 years' experience, and that barber who wrote to you should be kicked out of the union, if he belongs to one. A good barber welcomes children any time, and gives them bubble gum and lollipops for good behavior. And we WANT mothers to tell us how to cut their hair. That's the only way we are sure they are satisfied and will come back.

ANDY THE BARBER

DEAR ABBY: I am a barber's wife and I agree with the barber who prefers to have children come in on week-days, and leave Saturday for the working men. My husband earns one-third of his salary on Saturday and doesn't want to be slowed up by fidgety kids who cry and squirm. And mothers coach-

ing from the sidelines make him nervous. Saturdays should be reserved for ADULTS ONLY.

BARBER'S WIFE

DEAR ABBY: My husband was getting his hair cut the afternoon Pittsburgh won the Series. His hair hasn't grown out yet.

PITTSBURGH WIFE

DEAR WIFE: He's lucky he wasn't getting a shave.

DEAR ABBY: About barbers: I have eight boys. At today's prices, it would cost me \$14.00 a week for haircuts, so I bought a barber kit and learned how to cut hair myself. My husband laughed at me at first, then he came home one day looking like his hair had been cut with a knife and fork. He asked me to try to patch it up a little. I did such a good job he begs me to give him a haircut every week.

DID IT MYSELF

DEAR ABBY: When we are out socially and my husband happens to leave the room and someone says, "Gee, he's a great guy," what do I say? "He sure is," or "You should be around him at home."

DR. JEKYLL'S WIFE

DEAR WIFE: Don't say anything. Just smile and nod. If you say, "He sure is," while thinking otherwise, the message you'll probably convey is, "You should be around him at home."

## Letters to the Editor

Editor

The Desert Sun

I want it known that I have many friends who are in favor of incorporation of Desert Hot Springs. I respect their viewpoint. It is well known that I was instrumental in helping to bring this incorporation question to the voters. It may appear as if I was trying to work both sides. This is not true. I was sincere then, and I am sincere now in leading some of the forces opposed to incorporation.

The reason for my change is

because of the small home owners, the aged and the retired people with fixed incomes — people who would be unable to bear added taxation without personal sacrifice.

I am gathering information as to the costs of government in incorporated cities, and expect to make it public as soon as it is completed.

I feel that our village is not ready for incorporation.

Sincerely,  
James A. Collins

## Remember When...

DECEMBER 12, 1950

Local law enforcement officers today are faced with the difficult task of solving one of the most nearly perfect crimes perpetrated in Palm Springs in recent months. When Bullock Department store employees arrived there this morning they discovered that the store safe had been twisted open, checks scattered over the floor and over \$5,000 in currency and silver missing from the safe.

Don DuBose has resigned as Chamber of Commerce photographer to return to free lance work. No successor has been named.

DECEMBER 12, 1940

Two husky guys of the local police department, Chief of Police Norman Harstad and Officer Jim Maynard, sought a little "roughing it" over the weekend and got it the hard way in a most interesting hike over Mt. San Jacinto. Sleeping in the snow, going for a day without water because it froze, signaling Palm Springs relatives and friends by means of a bonfire, were a few of their unusual experiences. With all the troubles they encountered, they counted it a valuable experience, and Chief Harstad came back with 36 colored photographs. They started from Idyllwild and hiked down with the aid of a pack horse.

## Mixed Drink Title For Moning Gonzales

By GEORGE LAINE

Since even Pat O'Dea hadn't heard about it by last night, it ought to come to most as a pleasant surprise that Moning Gonzales, who pulverizes visitors at Don the Beachcomber with his fantastic bar concoctions, has won the National Mixed Drink Competition, which was held last week in the Desert Inn at Las Vegas.

"I didn't know about it," said Pat, "but I'm not surprised. Moning is great."

THE ANNOUNCEMENT may even catch Gonzales unawares. He — along with 3,000 other bartenders across the United States — submitted recipes on original drinks but did not appear to mix 'em at the DI.

Moning, who lives at 4411 Calle Carlos here, originated a recipe called "The Green Dragon" which was picked by the American Society of Bar Masters as one of 27 finalists in the competition.

Bud Lewis, who did the promotion on the contest, reported yesterday that the competition was really "stiff." ("But," he hastened to add, "don't misconstrue my meaning.")

A TOTAL OF 40 different judges hacked the entry lists down to the 27 finalists and included Helen O'Connell, Muzzy Marcellino, Billy Daniels, Sammy Davis, Jr., and others. (Where's the old expert Dean Martin?)

The judging was performed on the basis of taste, aroma, color and "other criteria."

Here courtesy of the Early Times folks, is Moning's recipe. You can try it at home—but the list is two to a customer: 1 1/2 ounces of bourbon, 3/4 ounce of lime or lemon juice, 3/4 ounce green curacao, 1/2 ounce of orange syrup. Shake ingredients with cracked ice, pour into 12 ounce pilser glass, garnish with sprig of mint, add cherry and a dash of powdered sugar.

And stand back!

MICKEY FINN, back in town following his Pony Express "Freedom Riders" gallop to Washington, D.C.—where he handed President Eisenhower a message exhorting Ike to emphasize the need for a strong front against

MONING GONZALES

Communism—said he'd go again tomorrow if the need were present and he were asked.

"It made me feel great to see how many people responded to this call," he said. The ride—by Finn and six other ace horsemen—was performed on approximately the 100th anniversary of the now-legendary Pony Express. Did they have it as tough in 1860 at their counterparts had it in 1860?

"I was caught in the snow in Pennsylvania—up in the Appalachians," said Mickey. "I kept wondering if the relief or the truck would ever show up. It's as cold as I've ever been."

INTERNATIONAL SCENE: It turns out that the cocktail waitress WAS married when, she alleges, Gardner McKay and she had an "Adventure in Paradise."

Russia and England plan to swap live TV shows next year . . . I've seen a couple on U.S. TV that I'd like to wish on the Soviets.

They're off and running—up at San Rafael—in another of those book-burning, witch-hunts . . . a minister up there wants Steinbeck's "Of Mice and Men" and J. D. Salinger's "Catcher in the Rye" banned from Redwood High in Larkspur. What's more, the minister found 21 other citizens to sign a petition in the action with him. He calls the books obscene and subversive. (How would the good pastor react if an atheist asked removal of the Bible from the school library on the grounds that it is folklore?)

EXECUTIVES OF THE new Los Angeles American League ball club are shown on arrival at the Palm Springs Airport Saturday for a conference with city and Chamber of Commerce officials on the availability of spring training facilities in the Village. The group greeted by chamber manager Jimmy Cooper, left, and Mayor Frank Bogert, center back, were

Gene Autry, from the left, chairman of the board; Paul O'Bryan, secretary-treasurer; general manager Fred Haney; and Bob Reynolds, president. The group expressed satisfaction with the Polo Grounds and a site decision is expected by Thursday.

## Runnels Takes Top Bat Honors In American

CHICAGO — **UPI** — The Boston Red Sox' Pete Runnels won his first American League batting championship in 1960 but the pennant-winning New York Yankees monopolized the league's individual and team power departments.

Runnels, 31-year old native of Lufkin, Tex., who lost the 1958 title to teammate Ted Williams on the final day of the season and finished third in the 1959 race, took the 1960 championship with a .330-mark, official averages released today confirmed. That was five points better than runnerup Al Smith of the Chicago White Sox and nine better than third-place Minnie Minoso, also of the White Sox.

**BILL SKOWRON** was the only Yankee to top .300 (.309) but Mickey Mantle and Roger Maris paced the AL champions to the best all-around offensive showing in the circuit. Mantle won the fourth home run title of his career with 40 while Maris finished second to Mickey with 39 homers and led in runs batted in with 112.

The Yankees also hit a club record total of 193 home runs and topped the circuit with 746 runs scored.

**THE WHITE SOX'** .270 team batting average was the highest in the league and they also had individual leaders in Minoso with 184 hits, Nelson Fox with 10 triples and Luis Aparicio with 51 stolen bases. Aparicio thus equaled the major league record of leading in steals five straight seasons.

Tito Francona of the Cleveland Indians led in doubles with 36. Closest to Maris in the important RBI column were Minoso with 105 and the Washington Senators' Jim Lemon with 100.

## PACKERS CAN WIN, DON'T COUNT ON IT

**By NORMAN MILLER**  
**United Press International**  
The Green Bay Packers can qualify for their first National Football League championship playoff since 1944 by beating the Rams next Saturday at Los Angeles—but don't count on it.

Not from the way things have been going lately in pro football's "Wild West."

**FOR THOSE RAMS** are the same team which jolted the Baltimore Colts' hopes for a third consecutive NFL championship Sunday with a 10-3 upset victory before 75,461 fans at Los Angeles.

The Rams have no title hopes for themselves, they're loose and they can delight the big home crowd by playing the role of "spoilers" against the Packers. The game will be nationally televised by CBS.

A victory for the Packers will put them in the playoff against the Eagles at Philadelphia, Dec. 26.

**A DEFEAT WOULD** put the Packers in a two or three-team tie for first place with the winner of next Sunday's Colts-San Francisco Forty-Niners game and possibly the Detroit Lions. A three-team deadlock would delay the championship playoff until Jan. 8.

Green Bay (7-4) moved into first place in the Western Division by beating San Francisco, 13-0, Saturday. The Colts had a chance to keep pace but lost to Los Angeles for their third straight defeat. Detroit moved into a second-place tie with the Colts and Forty-Niners (all at 6-5) by defeating the Dallas Cowboys, 23-14.

**THE EAGLES**, who clinched the Eastern Division crown last Sunday, were beaten by the Pittsburgh Steelers, 27-21; the Cleveland Browns knocked the Chicago Bears out of contention with a 42-0 shellacking; and the New York Giants beat the Washington Redskins, 17-3.

In the American Football League, the Houston Oilers clinched the Eastern Division title and won the right to meet the Los Angeles Chargers in the championship playoff, Jan. 1, by defeating the Buffalo Bills, 31-23; the New York Titans edged the Oakland Raiders, 31-28; and the Dallas Texans walloped the Boston Patriots, 34-0.

**QUARTERBACK BILLY** Wade ran 66 yards from scrimmage for a touchdown and Danny Villanueva kicked a 32-yard field goal during the Rams' second-half comeback which beat Baltimore. Wade got into the game only because starting quarterback Frank Ryan suffered a shoulder separation in the second period.

A superb defense was a key to the Los Angeles victory. When the Colts penetrated to the Rams' two-yard line in the first period, they were thrown back and had to settle for a 9-yard field goal by Steve Myhra.

## Angels Inspect Site, Decision Expected Soon

With a promise to return before Friday, a quartet of officials of the Los Angeles Angels flew out of here Saturday after a closed two-hour conference on the team's possible spring training here.

The Angel officials, led by board chairman Gene Autry, included Bob Reynolds, president, Fred Haney, general manager, and Paul O'Bryan, secretary.

**MAYOR FRANK Bogert** told The Desert Sun "apparently we've got the deal if we want it." He explained that Angels' officials were "enthusiastic about Palm Springs' facilities. We showed them some hotels, and went over the Polo grounds facilities. They will write us a letter which we should get tomorrow."

Bogert appointed a committee headed by vice mayor Kenneth Kirk, to study the team proposals. Serving with Kirk will be Harry Voelker, Ray Corliss, Ted McKinney, George Beebe, city engineer, Phil Abrams, and recreation chief Howard Haddock.

"I NEVER MET a finer group of guys to work with," Bogert reported. He termed the Autry-led group "the type of people we like to have in Palm Springs."

The meeting convened in the Chamber of Commerce office and later moved to tour the Polo Grounds. Both sides emphasized no decisions had been reached, but Angels' president Bob Reynolds and Autry both expressed pleasure with the Palm Springs offerings in training grounds and hotel accommodations.

The Angels are expected to announce a manager today and follow with beginning team selections in Cleveland Friday. The Angels are a new American League franchise.

**PRO-AM PLAY SET TODAY AT MUNICIPAL**  
Approximately 75 golfers were expected to tee off today in a 'Pro-Amateur' tournament at the Palm Springs Municipal course. The tournament will be a one-day 18-hole affair with one pro and four amateurs in each foursome. Zel Eatna, pro-manager at the course, is in charge.

These kids do it every day. There was a night during the Coral Gables tournament when an old timer, walking out in the shade of the evening, saw a half dozen of them still hitting shots.

"In my time," he said, "we'd have been in the bar long ago."

"We have a flock of young pros on the tour, any one of them able to win any tournament that comes along," Raynor explains.

**HE LISTS A few** of them. Guys like Mason Rudolph of Clarksville, Tenn.; Dave Hill of Denver; Dave Ragan of Orlando, Fla.; Jimmy Pittman of Tulsa; Dave Marr of Houston, Al Geiberger of Santa Barbara, Calif., and Tom Garrity, 21-year-old out of Kansas City who has been in three tournaments—and been in the money in each of them.

The answer is collegiate golf—and junior golf programs.

# Congdon Wins Seniors

## Defeats Metz By Four

Charles Congdon, 51-year-old Tacoma golfer who entered the United States Seniors Open Golf tourney last week in his second year of eligibility, fired two rounds of 69 for a seven-under-par 281 victory in the 72 hole event climaxed yesterday at Bermuda Dunes.

Congdon took the A. K. Bourne trophy and \$1,250 prize money for his 72-71-69-69, four stroke lead triumph. The teaching pro from Tacoma had fired a three-under par 69 Saturday at Eldorado to open the lead for the cup, and clinched it with a repeat yesterday.

**DICK METZ**, White Plains, N. Y., had been with Congdon during the first two rounds of the Seniors, trailed when Congdon opened his closely-clipped card at Eldorado. Metz took second slot in the joust, with a \$900 prize tally, for his three-day total of 285. Metz carded 73-70-72-70 in the tourney.

A three-cornered third place tie was shared at 288 by Jimmy Demaret, playing his first tourney as a senior; Eldon Briggs, Detroit, and Joe Brown, Des Moines, Ia. The trio garnered \$533 each for the place.

**AMATEUR OLEN Kull**, who didn't finish in the money, sank an ace at La Quinta Saturday. The 185 yard flight to the 12th hole was fired with a two-iron. The Glendale player tallied 81 for the day, giving him a 72 net after handicap. It was worth \$1,000 but due to being an amateur he could only take \$150, with \$850 donated to Pathfinders.

Only amateur to finish in the top standings was Johnny Dawson, who scored 295 to tie for 10th spot, with LaBran Harris.

**LOS ANGELES **UPI****—The St. Louis Hawks, front runners in the Western Division of the National Basketball Association, battle the second place Los Angeles Lakers tonight at the Sports Arena.

A scoring duel is on tap between the Lakers' Elgin Baylor, who recently set a NBA single game record with 71 points, and the Hawks' 6-foot-9 Bob Pettit who has already tallied more than 10,000 points as a professional.

The Lakers, returning home after a loss to the Hawks in St. Louis on Saturday night, 111-108, hope to snap a four-game losing streak.

Tom Brown, Minnesota's All-America guard who was named UPI's "Lineman of the Year" last week, finished second in the balloting with 39 votes.

# Young Yanks Are Coming Along In Golf Game, Topping Old Heroes

**By OSCAR FRALEY**  
**United Press International**  
**CORAL GABLES, Fla., **UPI****—The young Yanks without the shanks are coming today and you can take it from professional golf's able Harvey Raynor that you'd better believe it.

Raynor, tournament manager of the Professional Golf Association for the past eight years, has seen them all come and go. He worked with the Ben Hogans, the Sam Sneads and the Jimmy Demarets.

**AND IT'S HIS** work—backed up by recent facts—that the kids who don't smoke and don't drink but do belt a golf ball with dedicated passion are ready to make you forget the old heroes.

Just a week ago, old Slammin' Sammy Snead was leading by three strokes going into the last round of the West Palm Beach Open. So what happened? A 26-year-old former Louisiana State star named Johnny Pott came out of strictly nowhere to take first

money.

**THEN, JUST SUNDAY**, 41-year-old Ted Kroll, who once held the all-time one-year money winning record, had a two shot lead going into the last round of the Coral Gables Open. So what happened? A 25-year-old former Illinois football and baseball player named Bob Goalby came out of strictly nowhere to take first money.

"Don't sell these kids short," warns Raynor. "They're trained athletes. Seven of the first 10 on the money winning list don't smoke. The majority of them wouldn't even look at a drink. So you wonder why they can come out of nowhere on the last round? The reason is that they are just as fresh when they finish as when they start. It's the winning difference."

**HOGAN GAINED** a great reputation as a man who practiced interminably. On occasions he worked on his game until dark.

These kids do it every day. There was a night during the Coral Gables tournament when an old timer, walking out in the shade of the evening, saw a half dozen of them still hitting shots.

"In my time," he said, "we'd have been in the bar long ago."

"We have a flock of young pros on the tour, any one of them able to win any tournament that comes along," Raynor explains.

**HE LISTS A few** of them. Guys like Mason Rudolph of Clarksville, Tenn.; Dave Hill of Denver; Dave Ragan of Orlando, Fla.; Jimmy Pittman of Tulsa; Dave Marr of Houston, Al Geiberger of Santa Barbara, Calif., and Tom Garrity, 21-year-old out of Kansas City who has been in three tournaments—and been in the money in each of them.

The answer is collegiate golf—and junior golf programs.

"ARNOLD PALMER gave the young man's trend its greatest

impetus," says Raynor. "Now he has gone farther and endowed two college scholarships this year for young golfers. Many colleges are giving golf scholarships. The PGA is very active in promoting junior programs and the Western Golf Association has done a fine job with its caddie scholarship plan."

Intercollegiate—and even high school—competition has expanded to an amazing degree and colleges have finally started hiring top pros as tutors, as in the case of Henry Ransom at Texas A&M, and George Hall at Cornell.

**SO YOU'RE** a young man getting out of college and you're a fine golfer.

Well, in 1961 the professional tour will be playing for a total of \$1,600,000 in prizes. Not gold watches and medals, son. But solid hard, spendable cash. That's up \$200,000 over last year, and to boot, where else can you keep a sun tan all year round?

## Story Hour

### SPACE MAN

By Craig Gerth, 5, Desert Hot Springs Kindergarten  
A man in space got lost. He couldn't find his way home. Then he lost his rocket.

### MELODY'S KITTY

By Pamela Ward, 5, Desert Hot Springs School Kindergarten  
Melody had a baby kitty. It said, "Meow, meow." It played with strings. It drank chocolate milk.

### THE TRACK OF GOD

By JON HILL, 6, Agua Caliente School

A bunch of people were hunting for the Track of God. They were going to go on a rocket ship in the sky to find the Track of God. Then they were up in heaven. They found the Track of God. The tracks were big, big as twenty houses on top of each other. They went back on the rocket ship. Then they were going to go up in the air farther to see if they can find God.

They found a great big giant man sitting up on a tall, tall rock. They found out that was God. They saw a bunch of houses sitting in a row. They went in the houses and there were some people in those houses. There was a dog house sitting out by the houses. All of the people in the world had a house where they and all their pets will go when they

are dead.

There was a beautiful dog in that pretty dog house and that dog was the Hill family's and her name was Mickey. There was a great big pole, big as the whole world and there was a sign on the big pole. It said, "All the men in the world found the Track of God." It lived ever after.

### THE LITTLE LIGHT

By Karlene Swirbul (11), 9551 Barkerville, Whittier

One night a lady turned on a little light, but it wouldn't work. The light was lazy and never wanted to do anything. He would hardly ever do any work. He heard the lady say if that light doesn't work the next time I turn it on, I will throw him away. He didn't want to be thrown away, so he wondered how he could work. She turned on the big light and went into the kitchen.

The little light asked, "How come I don't shine?" "You don't shine because you don't try with all your might. You shouldn't be lazy. The next time she turns you on try with all your might," answered the big light. "I'll try. I hope it works," said the little light.

The next time the lady turned the little light on, he tried with all his might and he did it. The lady wondered why the light didn't work the last time but worked tonight. She didn't know that he had talked with the big light.
